Sir:

Responsive to the Office Action dated July 17, 2001, page 2, paragraphs 1 and 2, a timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) is enclosed to overcome an actual or provisional rejection based on a nonstatutory double patenting ground. Said disclaimer also provides information that the conflicting application or patent is shown to be commonly owned with this application.

Claims 25-48 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over (respectively) claims 1-30 of U.S. Patent # 6,220,516.

In view of the foregoing and the submission of the Terminal Disclaimer, allowance of claims 25-48 is requested.
